

ISO 9001:2008 Internal Auditor Training

Course overview

To successfully implement a quality management system and achieve/maintain ISO 9001 registration a company must have an Internal Quality Audit process and use trained auditors to perform the audits. Internal auditors are also a key element in quality system maintenance and improvement. This workshop teaches auditing to the ISO 9001:2008 Standard and places a strong emphasis on promoting employee participation in the improvement process.

You will learn how to

- *Describe the goals of an internal audit*
- *State the benefits of internal auditing*
- *Determine the requirements of an internal audit*
- *Plan an internal audit and develop a guidelist*
- *Perform an internal audit*
- *Identify nonconformity to requirements during an audit*
- *Report on an audit and follow up on corrective actions taken in response to audit findings*
- *Describe the actions necessary for maintaining a successful audit program*
