

ISO/TS 16949 and Core Tools Overview

Training Program Overview

This one day program provides an overview of the requirements of the ISO/TS 16949:2009 standard and an overview of the general requirements of the automotive core tool manuals. Participants will gain an understanding of the intent of the core tools and their linkages to the standard. Topics covered include:

- Overview of ISO/TS 16949 Requirements
- APQP - Advanced Product Quality Planning and linkages to ISO/TS 16949:2009
- PPAP - Production Part Approval Process and linkages to APQP
- FMEA - Failure Mode Effect Analysis, including Design and Process FMEAs
- SPC - Statistical Process Control and linkages to ISO/TS 16949
- MSA - Measurement System Analysis

Program Duration

This program will take 16-hours to complete.

Program Prerequisites

There are no prerequisites for this program.

Program Fees

ETI Group can present this training program at your facility. Your cost, including workbooks for up to sixteen participants is \$4,500.00. The training program and materials can also be “tailored” to meet any requirements unique to your company. For more information please contact ETI Group.
