

ISO 13485:2016 Internal Auditor

September 14-15 and September 21-22, 2026 (8:30am – 12:30pm)

Overview:

To successfully implement and maintain a Quality Management System (QMS) a company must have an Internal Audit process and use trained auditors to perform the audits. Internal auditors are also a key element in QMS improvement. This training course teaches auditing to the new ISO 13485:2016 Standard and places an emphasis on promoting employee participation in the improvement process.

How You Will Benefit:

Upon completion of this course, participants will be able to:

- *Describe the goals of an internal audit*
- *State the benefits of internal auditing*
- *Determine the requirements of an internal audit*
- *Explain how ISO 13485:2016 differs from ISO 9001, and the areas of focus for Medical Devices.*
- *Plan an internal audit, and develop a guide list*
- *Perform an internal audit*
- *Identify nonconformity to requirements during an audit*
- *Report on an audit and follow up on corrective actions taken in response to audit findings*
- *Describe the actions necessary for maintaining a successful audit program*

Who Should Attend:

People tasked with conducting Internal Audits of their organization's ISO 13485:2016 Quality Management System.

Course Prerequisites:

There are no pre-requisites to attend this training course but a basic understanding of the ISO 13485:2016 Quality Management System Standard would be beneficial.

Instructor Bio: [Bethany Quillinan](#)

Course Fees

Your cost for this instructor-led, on-line training workshop, including a comprehensive digital workbook and handouts is \$625.00 per person.
